An easy way to get involved is joining their phone banking. They train you up, give you the script, dial the numbers... and you can do it from home.

NAACP The NAACP is looking for local supporters.

Text the word 'Volunteer' to 20707 and they will match you up with local people who are infrequent voters. They would like community level support reaching people who are infrequent voters to encourage them to make it to the polls for this crucial election. The idea is that infrequent voters are much more likely to listen to fellow community members compared to national outreach by celebrities or advertising.
